Contents of Volume 25

Number 1, July 1987

Koop, K. and Larkum, A. W. D., Deposition of organic material in a coral reef lagoon, One Tree Island, Great Barrier Reef 1

Simon, N. S. and Kennedy, M. M., The distribution of nitrogen species and adsorption of ammonium in sediments from the tidal Potomac River and estuary . . . 11

Butler, A. C. and Sibbald, R. R., Sampling and GC-FID, GC/MS analysis of petroleum hydrocarbons in the ocean surface microlayer off Richards Bay, South Africa 27

Smith III, T. J., Effects of seed predators and light level on the distribution of *Avicennia marina* (Forsk.) Vierh. in tropical, tidal forests 43

Campbell, D. E. and Spinrad, R. W., The relationship between light attenuation and particle characteristics in a turbid estuary 53

Villa, N. and Pucci, A. E., Seasonal and spatial distributions of copper, cadmium and zinc in the seawater of Blanca Bay 67

Margosian, A., Tan, F. C., Cai, D. and Mann, K. H., Seawater temperature records from stable isotopic profiles in the shell of *Modiolus modiolus* 81

Walker Jr, H. J., Watson, W. and Barnett, A. M., Seasonal occurrence of larval fishes in the nearshore Southern California Bight off San Onofre, California . . 91

Wells, J. T. and Coleman, J. M., Wetland loss and the subdelta life cycle . . . 111

Fontigny, A., Billen, G. and Vives-rego, J., Some kinetic characteristics of exoproteolytic activity in coastal seawater 127

Schneider, D., Harrison, N. M. and Hunt Jr, G. L., Variation in the occurrence of marine birds at fronts in the Bering Sea 135

Number 2, August 1987

Seim, H. E., Kjerfve, B. and Sneed, J. E., Tides of Mississippi Sound and the adjacent continental shelf. 143

Faganeli, J., Ogorelec, B., Mišič, M., Dolenec, T. and Pezdič, J., Organic geochemistry of two 40-m sediment cores from the Gulf of Trieste (Northern Adriatic) 157

Hayes, D. W. and Sackett, W. M., Plutonium and cesium radionuclides in sediments of the Savannah River estuary. 169

Barrick, R. C. and Prahl, F. G., Hydrocarbon geochemistry of the Puget Sound region—III. Polycyclic aromatic hydrocarbons in sediments 175

Baillie, P. W., Diatom size distributions and community stratification in estuarine intertidal sediments 193

SCHAFFNER, L. C., DIAZ, R. J., OLSEN, C. R. and LARSEN, I. L., Faunal characteristics and sediment accumulation processes in the James River estuary, Virginia . 211
AJAYI, O. D. and POXTON, M. G., Sediment aliphatic hydrocarbons in the Forth estuary 227
SANCHEZ-SALAZAR, M. E., GRIFFITHS, C. L. and SEED, R., The interactive roles of predation and tidal elevation in structuring populations of the edible cockle, *Cerastoderma edule* 245

NUMBER 3, SEPTEMBER 1987

BOEHLERT, G. W. and MUNDY, B. C., Recruitment dynamics of metamorphosing English sole, *Parophorys vetulus*, to Yaquina Bay, Oregon 261
TOOLE, J., BAXTER, M. S. and THOMSON, J., The behaviour of uranium isotopes with salinity change in three U.K. estuaries 283
JACKSON, R. H., LE B. WILLIAMS, P. J. and JOINT, I. R., Freshwater phytoplankton in the low salinity region of the River Tamar estuary. 299
GALLAGHER, J. L. and HOWARTH, R. W., Seasonal differences in *Spartina* recoverable underground reserves in the Great Sippewissett marsh in Massachusetts . 313
WADA, E., MINAGAWA, M., MIZUTANI, H., TSUJI, T., IMAIZUMI, R. and KARASAWA, K., Biogeochemical studies on the transport of organic matter along the Otsuchi River watershed, Japan 321
KAZUMI, J., ZORKIN, N. and LEWIS, A. G., The effect of manganese–copper interactions on growth of a diatom in water from a manganese-rich British Columbia fjord 337
NEDWELL, D. B. and BLACKBURN, T. H., Anaerobic metabolism in lagoon sediments from Davies Reef, Great Barrier Reef. 347
SOURNIA, A., BIRRIEN, J.-L., DOUVILLE, J.-L., KLEIN, B. and VIOLLIER, M., A daily study of the diatom spring bloom at Roscoff (France) in 1985. I. The spring bloom within the annual cycle 355
AMBROGI, R. and AMBROGI, A. O., Temporal variations of secondary production in the marine bivalve *Spisula subtruncata* off the Po River delta (Italy) 369

NUMBER 4, OCTOBER 1987

DELAUNE, R. D., SMITH, C. J., PATRICK JR, W. H. and ROBERTS, H. H., Rejuvenated marsh and bay-bottom accretion on the rapidly subsiding coastal plain of the U.S. Gulf Coast: a second-order effect of the emerging Atchafalaya delta . . . 381
ROSS, S. T., MCMICHAEL JR, R. H. and RUPLE, D. L., Seasonal and diel variation in the standing crop of fishes and macroinvertebrates from a Gulf of Mexico surf zone. 391
SHOLKOVITZ, E. R. and MANN, D. R., ^{239,240}Pu in estuarine and shelf waters of the north-eastern United States 413
JUSTIC, D., LEGOVIC, T. and ROTTINI-SANDRINI, L., Trends in oxygen content 1911–1984 and occurrence of benthic mortality in the northern Adriatic Sea . . 435

MUKAI, T., Effects of micro-scale *in situ* environmental gradients concerning water qualities on the structure of the phytoplankton community in a coastal embayment 447
REED, D. J., Temporal sampling and discharge asymmetry in salt marsh creeks . . 459
EL-SAYED, M. KH., Chemistry of modern sediments in a hypersaline lagoon, north of Jeddah, Red Sea 467
BOOK REVIEWS 481
ANNOUNCEMENT 493

NUMBER 5, NOVEMBER 1987

VALE, C. and SUNDBY, B., Suspended sediment fluctuations in the Tagus estuary on semi-diurnal and fortnightly time scales 495
NEVERAUSKAS, V. P., Accumulation of periphyton biomass on artificial substrates deployed near a sewage sludge outfall in South Australia 509
HULL, S. C., Macroalgal mats and species abundance: a field experiment 519
SHIONO, K. and WEST, J. R., Turbulent perturbations of velocity in the Conwy estuary 533
GRANÉLI, E., Nutrient limitation of phytoplankton biomass in a brackish water bay highly influenced by river discharge 555
MUELLER-HARVEY, I. and PARKES, R. J., Measurement of volatile fatty acids in pore water from marine sediments by HPLC 567
REVELANTE, N. and GILMARTIN, M., Seasonal cycle of the ciliated protozoan and micrometazoan biomass in a Gulf of Maine estuary 581
NOTES AND DISCUSSIONS
COMMITO, J. A., Adult–larval interactions: predictions, mussels and cocoons . . 599

NUMBER 6, DECEMBER 1987

FALLON, R. D., Sedimentary sulfides in the nearshore Georgia bight 607
LEWIS, R. E. and LEWIS, J. O., Shear stress variations in an estuary 621
CUMMINGS, E. and RUBER, E., Copepod colonization of natural and artificial substrates in a salt marsh pool 637
GRANT, J. and SCHWINGHAMER, P., Size partitioning of microbial and meiobenthic biomass and respiration on Brown's Bank, south-west Nova Scotia 647
KITCHING, J. A., The flora and fauna associated with *Himanthalia elongata* (L.) S. F. Gray in relation to water current and wave action in the Lough Hyne marine nature reserve 663
HARVEY, J. W., GERMANN, P. F. and ODUM, W. E., Geomorphological control of subsurface hydrology in the creekbank zone of tidal marshes 677
RIEDEL, G. F., SANDERS, J. G. and OSMAN, R. W., The effect of biological and physical disturbances on the transport of arsenic from contaminated estuarine sediments 693

TALBOT, M. M. B. and BATE, G. C., Rip current characteristics and their role in the exchange of water and surf diatoms between the surf zone and nearshore . . . 707
MCPHERSON, B. F. and MILLER, R. L., The vertical attenuation of light in Charlotte Harbor, a shallow, subtropical estuary, south-western Florida 721
ANNOUNCEMENT. 739

Index to Volume 25

Adriatic Sea; oxygen content; long-term changes; surface; bottom; regression analysis; benthic organisms, 435

Adriatic Sea; secondary production; annual variations; bivalves; Mollusca; sands, 369

Adriatic Sea; sediments; organic matter; carbon; nitrogen; phosphorus; amino acids; carbohydrates, 157

Adsorption; analysis; estuarine zones; nitrogen; ammonium ions; sediments; interstitial water, 11

Ageing methods; Nova Scotia Coast; temperature profiles; isotope ratios; bivalves; diseases, 81

AJAYI, O. D. and POXTON, M. G., Sediment aliphatic hydrocarbons in the Forth estuary, 227

Alaska; Bering Sea; fronts; birds; flow profile; continental shelves, 135

Algae; epiphytes; water; currents; wave-exposure; Lough Hyne, 663

Algal blooms; experiment; macrofauna; redox; estuaries; Scotland Coast, 519

Aliphatic compounds; aromatic compounds; gas chromatography; mass spectroscopy; marine pollution; oceanic surface; South African Coast; hydrocarbons, 27

Aliphatic compounds; hydrocarbons; pollution/oil; sediment concentrations; gas chromatography; estuaries; Firth of Forth, 227

AMBROGI, A. O., *see* AMBROGI, R., 369

AMBROGI, R. and AMBROGI, A. O., Temporal variations of secondary production in the marine bivalve *Spisula subtruncata* off the Po River delta (Italy), 369

Amino acids; carbohydrates; Adriatic Sea; sediments; organic matter; carbon; nitrogen; phosphorus, 157

Ammonium ions; sediments; interstitial water; adsorption; analysis; estuarine zones; nitrogen, 11

Anaerobic respiration; sulphur cycles; Great Barrier Reef; lagoons; sediments, 347

Analysis; estuarine zones; nitrogen; ammonium ions; sediments; interstitial water; adsorption, 11

Annual variations; bivalves; Mollusca; sands; Adriatic Sea; secondary production, 369

Anoxia; continental shelf; estuaries; plutonium; radioactive isotopes; Connecticut Coast; Delaware Bay; Chesapeake Bay, 413

Argentina Coast; copper; cadmium; zinc; spatial distribution; seasonal; distribution; surface waters, 67

Aromatic compounds; gas chromatography; mass spectroscopy; marine pollution; oceanic surface; South African Coast; hydrocarbons; aliphatic compounds, 27

Arsenic compounds; biogeochemistry; bioturbation; diffusion; interstitial water; sediment–water interface; polychaeta; Chesapeake Bay, 693

Artificial substrates; sewage outfall; seagrass; periphyton; epiphytes, 509

Attenuation; light transmission; particulate matter; suspended solids; organic matter; macroflora; Florida coast, 721

Australia; predation; mangrove swamps; tropical regions; Queensland, 43

Autotrophs; Massachusetts Coast; salt marshes; coastal flora, 313

Bacteria; meiobenthos; continental shelf; Nova Scotia Banks; benthic fauna; size composition; oxygen demand; microfauna, 647

BAILLIE, P. W., Diatom size distributions and community stratification in estuarine intertidal sediments, 193

BARNETT, A. M., *see* WALKER, H. J., 91

BARRICK, R. C. and PRAHL, F. G., Hydrocarbon geochemistry of the Puget Sound region—III. Polycyclic aromatic hydrocarbons in sediments, 175

BATE, G. C., *see* TALBOT, M. M. B., 707

BAXTER, M. S., *see* TOOLE, J., 283

Bays; coastal area; Japan; water quality; phytoplankton; diversity index; gradient eutrophication, 447

Bays; sediments; carbon; nitrogen; spatial distribution; transport; Japan Coast, 321

Benthic fauna; population control; mud; oligochaeta; New England; Mytilus; community composition, 599

Benthic fauna; size composition; oxygen demand; microfauna; bacteria; meiobenthos; continental shelf; Nova Scotia Banks, 647

Benthic flora; diatoms; community; stratification; size composition; intertidal mud habitat; grazing; New England, 193

Benthic organisms; Adriatic Sea; oxygen content; long-term changes; surface; bottom; regression analysis, 435
Bering Sea; fronts; birds; flow profile; continental shelves; Alaska, 135
BILLEN, G., *see* FONTIGNY, A., 127
Biogeochemistry; bioturbation; diffusion; interstitial water; sediment–water interface; polychaeta; Chesapeake Bay; arsenic compounds, 693
Biomass; seasonal variations; Gulf of Mexico; fish; surf zone, 391
Bioturbation; diffusion; interstitial water; sediment–water interface; polychaeta; Chesapeake Bay; arsenic compounds; biogeochemistry, 693
Bioturbation; radionuclides, sedimentation rates; community composition; sediment structures; salinity gradient; Chesapeake Bay, 211
Birds; flow profile; continental shelves; Alaska; Bering Sea; fronts, 135
Birds; predation; cockles; population composition; crabs, 245
BIRRIEN, J.-L., *see* SOURNIA, A., 355
Bivalves; diseases; ageing methods; Nova Scotia Coast; temperature profiles; isotope ratios, 81
Bivalves; Mollusca; sands; Adriatic Sea; secondary production; annual variations, 369
BLACKBURN, T. H., *see* NEDWELL, D. B., 347
BOEHLERT, G. W. and MUNDY, B. C., Recruitment dynamics of metamorphosing English sole, *Parophorys vetulus*, to Yaquina Bay, Oregon, 261
Bottom; regression analysis; benthic organisms; Adriatic Sea; oxygen content; long-term changes; surface, 435
British Isles; uranium; isotope ratios; estuaries; rivers; salinity gradient, 283
BUTLER, A. C. and SIBBALD, R. R., Sampling and GC-FID, GC/MS analysis of petroleum hydrocarbons in the ocean surface microlayer off Richards Bay, South Africa, 27
Cadmium; zinc; spatial distribution; sesonal; distribution; surface waters; Argentina Coast; copper, 67
CAI, D., *see* MARGOSIAN, A., 81
California; fish larvae; seasonal; temperature; spawning; zoogeography; upwelling, 91
Carbohydrates; Adriatic Sea; sediments; organic matter; carbon; nitrogen; phosphorus; amino acids, 157
Carbon; nitrogen; phosphorus; amino acids; carbohydrates; Adriatic Sea; sediments; organic matter, 157
Carbon; nitrogen; sediment traps; coral reefs; Great Barrier Reef; sedimentation; organic matter, 1
Carbon; nitrogen; spatial distribution; transport; Japan Coast; bays; sediments, 321
CAMPBELL, D. E. and SPINRAD, R. W., The relationship between light attenuation and particle characteristics in a turbid estuary, 53
Cesium; lead; isotopic dating; sedimentation; delta; nutrients; Lousiana, 381
Cesium; sediments; plutonium, 169
Chemistry; diagenesis; Red Sea; salinity; lagoons; sediment, 467
Chesapeake Bay; anoxia; continental shelf; estuaries; plutonium; radioactive isotopes; Connecticut Coast; Delaware Bay, 413
Chesapeake Bay; arsenic compounds; biogeochemistry; bioturbation; diffusion; interstitial water; sediment-water interface; polychaeta, 693
Chesapeake Bay; bioturbation radionuclides; sedimentation rates; community composition; sediment structures; salinity gradient, 211
Chesapeake Bay; salt marshes; *Spartina*; hydrology; pore waters; soil properties; groundwater; wetlands, 677
Chesapeake Bay; suspended matter; particulate matter; particle size distribution; optical measurements, 53
Circulation; density gradients; measurements; fluid motion; partially mixed estuary; shear stress; turbulence; velocity, 533
Coastal area; Japan; water quality; phytoplankton; diversity index; gradient; eutrophication; bays, 447
Coastal flora; autotrophs; Massachusetts Coast; salt marshes, 313
Coastal waters, 127
Cockles; population composition; crabs; birds; predation, 245
COLEMAN, J. M., *see* WELLS, J. T., 111

Colonization; salt marshes; substrates; Massachusetts; copepoda, 637
COMMITO, J. A., Adult–larval interactions: predictions, mussels and cocoons, 599
Community; stratification; size composition; intertidal mud habitat; grazing; New England; benthic flora; diatoms, 193
Community composition; benthic fauna; population control; mud; oligochaeta; New England; Mytilus, 599
Community composition; sediment structures; salinity gradient; Chesapeake Bay; bioturbation; radionuclides; sedimentation rates, 211
Connecticut Coast; Delaware Bay; Chesapeake Bay; anoxia; continental shelf; estuaries; plutonium; radioactive isotopes, 413
Continental shelf; estuaries; plutonium; radioactive isotopes; Connecticut Coast; Delaware Bay; Chesapeake Bay; anoxia, 413
Continental shelf; Nova Scotia Banks; benthic fauna; size composition; oxygen demand; microfauna; bacteria; meiobenthos, 647
Continental shelves; Alaska; Bering Sea; fronts; birds; flow profiles, 135
Copepoda; colonization; salt marshes; substrates; Massachusetts, 637
Copper; cadmium; zinc; spatial distribution; seasonal; distribution; surface waters; Argentina Coast, 67
Copper; plankton; metals, 337
Coral reefs; Great Barrier Reef; sedimentation; organic matter; carbon; nitrogen; sediment traps, 1
Crabs; birds; predation; cockles; population composition, 245
CUMMINGS, E. and RUBER, E., Copepod colonization of natural and artificial substrates in a salt marsh pool, 637
Currents; diurnal tide; Gulf of Mexico; Mississippi sound; semidiurnal tide, 143
Currents; wave-exposure; Lough Hyne; algae; epiphytes; water, 663
